Dr. Karen

Yvonne Perry comes back on my show for another exciting interview!

Have you heard of light language? The first time people hear it they often think "what in the world is this?!"

There a wealth of various un-learned languages out there (spontaneous hand and body mudras, singing, dancing, and toning) called "light language" that can be used for healing, light-body activation, inter-dimensional travel, manifestation of resources, soul retrieval, integration of soul aspects, and directing energy. The frequencies accessed by the use of light language can affect DNA, thus reconnecting us with the blueprint and template upgrades for the divine human.

Amazing right?!

One of my very wonderful healer friends Yvonne Perry agreed to come on my show to give us a taste of LIVE light language just for my tribe and all those on the call. I'm SO excited!

Join us to learn:

- How can light language help us pick up information from realms beyond what is commonly accessed
- Who can activate light language?
- How is light language activated?

Be sure to join us live to experience light language for yourself!

We will even be taking LIVE callers!

Here's how to tune in...

It's that time again! We are once again in the Expansion phase of the Ascension cycle whereby our "receiving" gifts and our "clairs" get amped up. So if you have been feeling more sensitive this week.. You are not alone! You may have also found that your boundaries and firewalls go down temporarily.

In this week's [Spiritual Medicine Digest](#) I share with you why this is actually a GOOD thing, and some fascinating new revealing information including..

>>How Starseeds all over the galaxy have created a new Cosmic Starseed grid.

>>How to downloading the evolved "cell membrane" and "Overseer"

>>Why my clients and I have had issues with "swelling" and how to release this excess water

If you missed this week's radio show with Cathy Hohmeyer you'll definitely want to check it out. Cathy revealed that if your Human Spirit Access Portal clogged up, you may have difficulty being in your body! You can check out that radio show [HERE](#).

Speaking of my radio show, this Monday at 3 pm EST I'm airing my interview with Baxter about "Yoga for Healthy Aging" a wonderful resource for anyone wanting to more gracefully deal with illness, stress and aging. You can join us [HERE](#).

Good news! This week we were only in the **“Resistance Phase”** for a few days..
woo hoo!

Now we are back in the Ascension Integration phase.

A great question to ask right now is *“Are all part of me integrating and grounding fully?”*

You can even do this for specific physical parts of your body.

And here’s another juicy tidbit. One of the most important things I’ve told my clients this week is that you **“don’t have to clear stuff all the time!”**

Now after years of “clearing” work, you may need to be open that there isn’t much left to “clear”, but that there might be new positive energies or morphic fields you can incorporate into your being for greater abundance and health. For my Advanced Light Warriors you have your handy TOLPAKAN Healing Guides to help you with this!

I share more in this week’s [Spiritual Medicine Digest](#) including..

- ~ How to get a copy of the Top 20 Healing Directives for TOLPAKAN HEALING
- ~ How to check your Reactivity Score and turn it down
- ~ How to join us for some LIVE Mini Healings with Cathy Hohmeyer on Monday

Enjoy this week’s video below and don’t forget to subscribe to these weekly videos [HERE](#) to stay updated with the details of my sneak peek release of **my newest Manifestation program** (officially debuting October 18th!)

Healing for Hurricane Irma, Time Travel and Soul Want distractions

The Light Warriors in my group have been busy this week trying to shift the path and level of Hurricane Irma! I found out from Source that Irma was actually artificially manipulated. The good news is that it is actually easier to heal!

I share more in this week's [Spiritual Medicine Digest](#) including..

1. What lessons have come out of the most recent Hurricanes
2. How your "Soul Wants" can distract you from your divine purpose and leak your Energy
3. Stipulations to do safe time travel (yep, some people are doing in unconsciously!)

Finally, I'm excited to share with you a new modality I'm falling in love with – Block Therapy. Be sure to check out my interview about it Monday [HERE](#).
