

Join us LIVE Monday to ask the Doctors Your Questions

The “doctor” side of me is SUPER excited for Monday’s radio show! Why? Because I’ve been anxiously awaiting to pick Dr. Dennis’ brain more about how something so small and “disposable” can do fancy things like balance our hormones!

And this particular issue hits home for me. I’ve been wanting to find creative LifeWave protocols to bring back softness and flexibility to my fascia after years of autoimmunity and athletic pursuits. I’m really wanting to compete again this season and push the boundaries of what my body can do in figure skating.

So join us LIVE Monday to chat with the doctors yourself! This is your chance to ask any acupuncture, Chinese Medicine, LifeWave, appendix questions too!

Here are the details to join us:

Monday, November 6th at 12 pm Noon EST

Tune in via webcast

at: <http://www.blogtalkradio.com/drkaren/2017/11/06/why-the-appendix-is-more-important-than-you-think>

Call in to ask your questions at: (818) 514-1190

Can’t join us Live? Just bookmark the link above to check out the replay anytime after the show ends.

Blessings,
Dr. Karen
